

The Chicago Institute for Psychoanalysis

The Chicago Institute for Psychoanalysis is a big name in Psychoanalysis in Chicago land area. Besides their Professional Training Programs, they have also started offering a 1 year weekend fellowship program. The fellows meet once a month on a Saturday. The institute provides free access to landmark psychoanalytic reading material online. They also arrange for fellows to meet with their mentors who are experienced psychoanalysts. The institute also arranges scientific programs on a Tuesday evening every month which are optional for the fellows and free and open to all. They also often organize Saturday afternoon workshops. They bring together cinema and psychoanalysis in their series “Cinema on the Couch” once a month on Sunday afternoons. I have been a part of their activities and the experience is absolutely invigorating. These are all great opportunities for the residents to grow. I mark these weekends as the most productive weekends ☺
