

Tips for Writing an Essay

1. Start by outlining your essay. Brainstorm the topic and points you feel would best answer the question. This can help organize your thoughts to ensure that your essay is clearly written.
2. Avoid unnecessary words and phrases or excess information. Be concise and to the point. This will make your essay more concrete and persuasive.
3. Use active voice whenever possible. This will make your writing more direct and engaging.
4. Edit and revise your essay. Reading it out loud can reveal errors or corrections you may want to change.
